Spring is on its way!

LAUNDRY

Audrey Hepburn would be thrilled by the re-emergence of the **tapered pant**, spring's feminine and timeless essential, in ankle and crop length.

Spring details such as **sporty cuts, saturated colour and tribal embellishments** are present, but paired with softer pieces. Mellow pastels in even softer fabrics are everywhere making the perfect foil for spring's harder, military-inspired looks. Feminine draping, **lingerie-inspired dressing**, and fresh prints, always spring staples, are featured this season. Eyelet lace gets tough in perforated accessories and sheer clothing. Oh, and ooo lala day and evening shorts have gotten shorter.

Accessories offer a world of choice. In shoe news, **the wedge is back** (if it ever left!) and nude is the colour du jour for all styles. **Bracelets continue to be the most coveted pieces**, with lucite and chunky stones replacing last year's delicate bangles. The colour options are endless; bright geometric pieces can be worn alongside more subdued classics in clear and neutral tones.

TEENFLO

...and with it, a new array of classic silhouettes and bold colours to boost our spirits. Spring trends include hues and details to please every taste. Cool (**spearmint, aqua and teal**), warm (**coral, geranium and yellow**) palettes offer endless colour options. Forgo black in favour of spring's softer neutrals, khaki, nude, pale grey, white and blush.

Denim

Fans of a skinny cut are in luck, as this style endures in a variety of washes. **Gray is still a popular option, and distressed** details abound. Update your denim wardrobe by embracing lighter washes and distressed details. Chambray is the surprise hit of the season, showing up everywhere from jackets to skinnies to button-ups. The truly brave are also mixing and matching their washes to create unique combinations of their own.

Jewellery

Hillberg & Berk's Spring/Summer 2010 Collection pays homage to the chic and beautiful sensuality of the 70's. Subtle blues, greens, and dusty pinks make you feel feminine and sensual. Mother of Pearl, Green Garnet, Aquamarine, Wood and Coral work well with spring's fashion trends. Mix up your gold and silver, layer it, and flaunt it.
