## Announcing the debut of **Spring** at **Marbella Clothing!**

Everybody is ready for winter to be over and Marbella can help to **heat things up**. Not only do we have a freshly renovated store, we have the latest hot lines, new pieces from our already existing lines and the introduction of men's clothing.

### We've done it again and put together another top 10 list of the most important pieces & Styles for Spring:

- **Colour** - Emerald green, yellow, fuchsia, and electric blue
- **Safari** - from jackets to dresses look for patch pockets and great buttons
- **Sheer layers** - layering a sheer blouse over cami or dress shouts spring and femininity
- **Metallics** - they continue to sparkle this season in accessories, dresses and tops
- **70's** - put on a pair of wide leg pants and peasant top because yes, it is back
- **Florals and prints** - moderation is key here but you will see this in everything from tops to shoes
- **Bling** - crystals and sequins add just the right touch to that blouse or dress but remember – moderation
- **50's** - flared skirts with fitted tops and full skirt dresses are seen in bold, bright colours
- **Preppy** - male inspired pieces work well this season, try blazers with jeans or khakis, or sleek pants and tailored top
- **Be feminine and dress up** - buttons, ruffles and bows will make you feel that goddess that you are

## JEWELRY BY HILLBERG & BERK

Some of the trends that we are using in our collection are tribal elements and earthy materials such as wood, coral and delicately carved mother of pearl. Necklaces that make a statement are very hot for summer. We have given

more versatility to the statement necklace by allowing all of our double and triple strand pieces to come apart and be worn individually. Another trend for spring is vibrant bights such as Yellow Jade, African Turquoise and Lemon Jasper. A piece of jewelry containing one of these vibrant summer colors is a must have.

Bring some sunshine into your closet with hot colours for Spring: Juicy oranges, Lemon yellows, Kelly greens, shots of red and blasts of blue will also make an appearance. Add a little bling to your wardrobe with some sassy metallics in your accessories.

Put a little spring in your step with some new shoes!

This season the shoes are really fun. Patent leather, buckles, and colour are the main key elements. Peep toes, softened square toes and round toes are seen and everything from ballerina to pumps and wedges. The perfect way to finish off your outfit. Really can you ever have too many shoes?
