SPRING WILL COME (we promise!!)

TEENFLO

Here at Marbella, we are prepared with this season's **top trends**. Spring trends include **bright colours, sheer fabrics, bold prints, Technicolour accessories, flowing dresses and the 'bohemian chic' look.**

This year, spring screams feminine lines, colours and patterns. Emphasize your classic neutrals and earth tones with spring's freshest additions. Lemon Yellow is the season's favourite, although fruit inspired

grapefruit and tangerine are both essentials. For evening, highlight with wild fuschias, bold blues, and rich emerald greens. Accent your outfits with metallic accessories – both gold and silver!

Spring is not complete without our favourite flowing dresses – this year both in maxi and mini! From day to day wear to evening gowns, the maxi dress is back to stay. Worn in everything from sheer fabrics, earth tones, to the season's boldest prints; dresses are always a must have for spring!

Prints are a staple this season, incorporating brave, bold colour with stripes, graphics, circles and butterflies. Pair with a classic silhouette to complete the look. Bohemian chic is one of Spring's top looks – pairing your psychedelic bold and graphic prints with simple favourites to master the style.

JEANS

Jeans are once again a hot commodity this Spring! Skinny's are always a must-have, paired with a cute pump or flat. The boyfriend jean is the season's favourite – in a distressed wash. The wide-leg trouser jean is a 'keeper' when paired with a fitted top to emphasize your feminine shape. Light washes are sizzling this season, but dark denim is never far behind!
