

Marbella

If you are wondering what is in for this **fall** and how to add to your existing wardrobe, Marbella is here to help. There are always conflicting reports on the new "it" trends of the season. *Fortunately*, we have put together a list of the **10 most important styles for the season:**

- **Oversize dressing** – if you wear big on top, wear skinny at the bottom
- **Sweater knits** – everything from sweater dresses to chunky sweaters
- **Menswear inspired prints** – hounds tooth, plaids, and pinstripes
- **Booties** – best worn with straight or skinny pants
- **60's Mod** – mod touches everywhere from mini skirts to tunic dresses and bold patterns
- **Dresses and Tunics** – carried over from spring, choose from feminine wrap dresses, knit tunics to loose jersey styles and kimonos
- **Wide Belts** – over dresses, coats and suits, best worn at the waist
- **Wide legged trousers** – the skinny is now a basic, try this silhouette in denim or a wool trouser
- **Oversized Clutch** – it's all about a statement bag
- **Sequins** – day or evening

The Skinny on Denim:

This season denim gets dressed up in dark washes! The skinny jean, straight leg jean and wide-leg trouser jean are the key cuts for Fall. The high waisted jean is also an important piece. Our favorites: Citizens of Humanity, Seven for all Mankind, Hudson, and William Rast.

We have set up our back room as a Sale Area. Don't miss out on great savings, everything is 50-70% OFF!
