HILLBERG & BERK

This **Autumn / Winter Collection** focuses on two main themes Nouveau Romanticism and Chic Grunge. Nouveau Romanticism promises everything girly and feminine with our signature silver heart and H&B bow findings. But our trend does more than raid the past for inspiration - we've taken the vintage and made it modern. Included in this Collection are fresh water pearls, hematite, Swarovski crystal and sterling silver.

Chic Grunge caters to the girl in us all that wants to stand out in the crowd. These pieces are not for the meek and meant to be worn daily. Don't store these for a special occasion - we recommend you wear them as often as possible! Chic Grunge features labradorite, mookite, gold-filled, turquoise, hematite, sterling silver and Swarovski crystal.

WILLIAM RAST

Add some pizzazz to your closet with fall's latest colour additions: **Cobalt Blue**, **Royal Purple**, and **Lipstick Red**. Don't forget to add in your **greens** and **pastels** to fall's favorites **charcoal grey**, **black** and **navy**.
